

## Ciena Authorization Letter

Ciena Business Partner,

Ciena is working with Assent as our technology and regulatory compliance partner.

You will be asked to use the supplier portal, managed and supported by Assent, to submit responses to specific data and regulatory requests. Information regarding these data and regulatory requests will be provided in the near future. Prior to receiving requests for information, you may be contacted by an Assent representative with educational resources and an onboarding guide on how to provide the necessary data.

Ciena requires that you respond to all upcoming data and regulatory requests as part of regular business operations and continuity.

Best regards,

  
Steven Haley (Apr 7, 2020)
